

RAGA GV-100 ماده آبنندی و روانکاری شیرآلات Gate از نوع سنتتیک می باشد.
RAGA GV-100 جهت آبنندی و روانکاری شیرهای Gate تجهیزات سر چاه های نفت مناسب بوده و مقاومت بسیار خوبی در مقابل آب و مواد همراه نفت خام دارد.

RAGA GV-100 Gate Valve Sealant and Lubricant is formulated from synthetic base oil and special additives that provide increased resistance to aliphatic hydrocarbons and water solutions.
RAGA GV-100 is recommended for well-head Gate valves, sealant and lubricant in low and high temperature (-25°C - +180°C) applications.

Product Specification

Base Oil	Synthetic
Colour	Dark Brown
Texture	Tacky
ASTM Penetration	min 170 in Bulk form
Drop Point	None
Compatibility	Excellent
Solvent Resistance	Standard Type
Special Additives	Lubricity Agent
Composition	Semi liquid
Temperature Range	-25 °C to +180°C

Order Details

Ordering Size

4.5 Kg Tin	GV-100 - 4.5 kg
18 Kg Pail	GV-100 - 18 kg
200 kg Drum	GV-100 - 200 D

Part No.
