

Mesopharm

UV:SAVE CREAM SPF 50

A complex of innovative stable chemical filters ensures high-level protection against **UVA/UVB** and **blue light** without creating a mask-like effect or leaving white traces!

This is your daily essential that:

protects against
harmful rays

deeply
moisturises

restores the skin
barrier

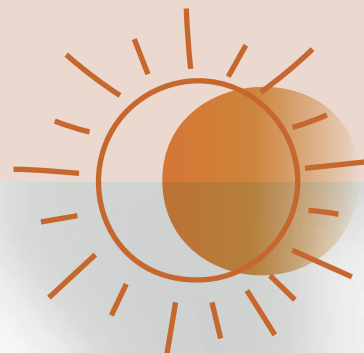

soothes
inflammation

ECTOIN

- Protects cells from UV-induced damage
- Reduces melanin synthesis and prevents hyperpigmentation
- Enhances cell regeneration and vitality
- Forms a protective, moisture-saving film
- Effective for atopic dermatitis

TOCOPHERYL ACETATE (VITAMIN E)

- Powerful antioxidant
- Slows down photoaging
- Strengthens the skin barrier and promotes its recovery
- Calms, softens, reduces dryness and flaking

CITRUS BIOFLAVONOIDS, BROCCOLI AND ALOE EXTRACT COMPLEX

- Activates the skin's own defence mechanisms
- Supports DNA repair processes
- Improves skin texture: cleanses pores and regulates sebum production

MEDICAGO SATIVA

- Protects against blue light
- Reduces cellular inflammation
- Prevents photo-damage and premature aging

UV:SAVE CREAM SPF 50 — your new standard in skin protection.

An impeccable formula for city and resort environments, for all skin types, every day.
