Nucleospire DNA-RNA 1% DM Anti-Aging

Helps to solve age-related skin problems. Has an instant effect of smoothing wrinkles. The presence of special active substances in the composition allows to achieve high results in a short period of time.

 syringe 1,3 ml

COMPOSITION:

- Hyaluronic acid 0,5% (1800 kDa)
- DNA-RNA complex
- DMAE 2,0%
- Organic silicon
- L-amino acids
- B group vitamins
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Complex therapy of involution changes of the skin
- Age 40+
- Face, décolleté
- Express lifting

TREATMENT COURSE:

4-6 procedures with an interval of 10-14 days.

Nucleospire DNA-RNA 1% DM Peptide

A preparation with a rich complex of highly active ingredients resolves a range of age-related problems of the skin.

 syringe 2 ml

COMPOSITION:

- Hyaluronic acid 0,8% (1800 kDa)
- DNA-RNA complex
- DMAE 2,5%
- L-amino acids
- Vitamin B5
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Complex therapy of involution changes of the skin
- Age 45+
- Face, décolleté
- Express lifting

TREATMENT COURSE:

4-6 procedures with an interval of 10-14 days.

Hair X Peptide

Highly active complex helps to treat hair loss problems and stimulates the growth of new healthy hair.

 syringe 1,3 ml

COMPOSITION:

- Hyaluronic acid 0,3% (1800 kDa)
- DNA-RNA complex
- Organic silicon
- L-amino acids
- B group vitamins
- Trace elements
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Diffuse hair loss treatment

TREATMENT COURSE:

4-6 procedures with an interval of 1 week. Then 3-4 procedures with an interval of 14 days. Maintenance sessions once a month.

Hair X DNA Peptide

Complex for hair therapy has balanced formula of ingredients that are vital for hair growth and healthy hair condition.

 syringe 2 ml

COMPOSITION:

- Hyaluronic acid 0,3% (1800 kDa)
- DNA-RNA complex
- Organic silicon
- L-amino acids
- B group vitamins
- Trace elements
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Diffuse hair loss treatment
- Complex therapy of androgenic alopecia

TREATMENT COURSE:

4-6 procedures with an interval of 1 week. Then 3-4 procedures with an interval of 14 days. Maintenance sessions once a month.

ADN Restart Immuno

Unique product has a pronounced antibacterial and immunomodulatory effect. It is designed to reduce the inflammatory reaction by mobilizing reserves of the skin.

 syringe 1,3 ml

COMPOSITION:

- Anti-inflammatory peptide complex
- DNA-RNA complex
- Vitamin B6
- Trace elements
- Buffer system

USE:

- Acne therapy, including active phase

TREATMENT COURSE:

4-5 procedures every day or with an interval of 1-2 days.

ADN Restart Peptide

Effective preparation is aimed at the correction of skin imperfections. Normalizes sebo-regulating process, improves the immune status of the skin, inhibits inflammation, reduces the risk of scarring.

 syringe 2 ml

COMPOSITION:

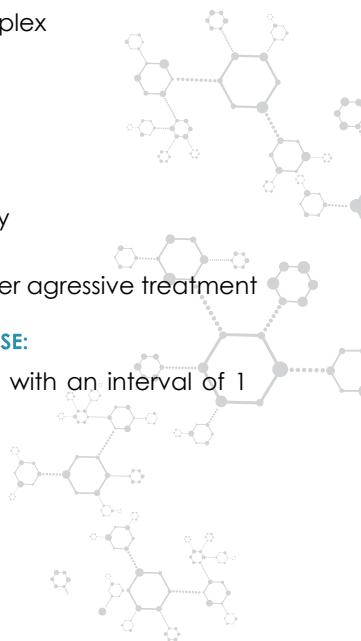

- Hyaluronic acid 0,8% (1800 kDa)
- DNA-RNA complex
- Vitamins
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Acne therapy
- Stressed skin
- Recovery after aggressive treatment

TREATMENT COURSE:

4-6 procedures with an interval of 1 week.

Hydro Line Anti-Wrinkles

Ideal for thin and delicate skin of the periorbital area. Increases skin density, reduces the depth of wrinkles, brightens the skin around the eyes.

 syringe 1,3 ml

COMPOSITION:

- Hyaluronic acid 0,5% (1800 kDa)
- L-amino acids
- B group vitamins
- Trace elements
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Correction of dark circles under the eyes
- Sensitive areas: neck, periorbital area
- Fine lines and wrinkles around the eyes
- Age 30+

TREATMENT COURSE:

4-6 procedures with an interval of 1 week.

Hydro Line Peptide

Instantly transforms the skin, gives it a healthy glow. During the course of therapy, fine lines and microrelief are smoothed, wrinkles become smaller, the skin color is radically improved.

 syringe 2 ml

COMPOSITION:

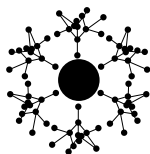

- Hyaluronic acid 0,8% (1800 kDa)
- L-amino acids
- B group vitamins
- Trace elements
- Peptide complex
- Antioxidants
- Buffer system

USE:

- Hydration
- Anti-age and anti-wrinkle therapy (age 40+)
- Periorbital area
- Recovery after aggressive treatment
- Trichology

TREATMENT COURSE:

4-6 procedures with an interval of 1 week.
