# ANTI-ACNE TREATMENT

Solution for clear  
and healthy skin

ADN RESTART

## ABOUT THE LINE

---

Our line **ADN Restart** is a solution for comprehensive acne treatment.

The products effectively reduce inflammation, regulate sebum production, prevent scarring, and restore health and balance of the skin.

EXPERT APPROACH TO ACNE PROBLEM:  
ENTRUST YOUR SKIN TO PROFESSIONALS

# ADVANCED ACNE CORRECTION SYSTEMS

## ADN RESTART PEPTIDE

2.0 mL

The product normalizes sebum production, enhances the skin's immune function, inhibits inflammation, reduces the risk of scarring and replenishes antioxidant levels.

### COMPOSITION:

- HA (1800 kDa 0.8%) • PDRN • Amino acid peptide complex • B vitamins • Buffer system

### INDICATIONS:

- Anti-acne treatment • Anti-stress therapy
- Preparation for and rehabilitation after aggressive exposure • Anti-inflammatory therapy
- Biorevitalization for oily skin

## ADN RESTART IMMUNO

1.3 mL

The only formulation that provides rapid relief from acute inflammatory reactions by activating the skin's natural defenses, with pronounced bacteriostatic action.

### COMPOSITION:

- PDRN • Amino acid peptide complex • B vitamins • Buffer system

### INDICATIONS:

- Anti-acne treatment • Improvement of the immune status of the skin • Anti-inflammatory therapy

## ADN RESTART

4 mL

Multipurpose mesotherapy cocktail.

### COMPOSITION:

- Amino acid peptide complex • PDRN • Buffer system

### INDICATIONS:

- Anti-acne treatment • Intensive revitalization
- Preparation for and rehabilitation after aggressive exposure • Correction of scars and hyperpigmentation • Anti-age treatment, including the periorbital area • Hair loss treatment

# SKIN HEALTH RESTORATION AND RESULTS PROLONGATION

## ADN RESTART ARMOR

5 mL

Concentrate with anti-inflammatory, whitening, sebostatic and vessel-strengthening effects.

### COMPOSITION:

- 11 plant extracts • DNA-RNA complex •  $\beta$ -thujaplicin
- Azelaic acid • Buffer system

### INDICATIONS:

- As a part of complex acne, seborrheic dermatitis and rosacea treatment
- The recovery phase of treatment after the acute inflammation has been resolved

## NUCLEOSPIRE DNA-RNA 2% PDRN+HA

4 mL

Cocktail based on DNA-RNA complexes and hyaluronic acid in the buffer system.

### COMPOSITION:

- PDRN • Buffer system

### INDICATIONS:

- Anti-acne treatment • Correction of hyperpigmentation
- Intensive revitalization • Improvement of the periorbital area • Hair loss treatment

## NUCLEOSPIRE DNA-RNA 2%

1.3/2 mL

Booster with polynucleotides, restoring the skin's ability to regenerate.

### COMPOSITION:

- PDRN • Buffer system

### INDICATIONS:

- Intensive revitalization • Anti-age treatment
- Anti-acne treatment • Correction of scars, including post-acne scars • Correction of hyperpigmentation
- Deep hydration • Preparation for and rehabilitation after aggressive exposure

# MESOPHARM™ CHEMICAL PEELS

Chemical peels are one of the most effective tools in the fight against acne and its consequences. They help to reduce inflammation, regulate sebaceous gland activity, smooth the skin's texture and tone, and prevent new outbreaks.

In the Mesopharm™ range, there are products that address acne comprehensively – from removing comedones to correcting post-acne.

## MULTI:COMPLEX PEEL

Cleansing mask  
with kaolin

200 mL

# RESULTS THAT INSPIRE

Acne treatment can be not only effective, but also gentle

Mesotherapy for acne patients is performed only by specialists with medical education who have undergone specialized training.

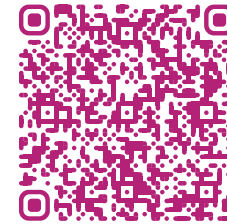

Injections into areas of inflammation are not allowed to avoid the spread of infection.

Photos of the results of the Mesopharm™ product use provided by dermatologist and venereologist E.A. Morozova

THE INFORMATION IS INTENDED FOR MEDICAL SPECIALISTS. PERFORMING PROCEDURES WITH INJECTABLE PRODUCTS AND CHEMICAL PEELS REQUIRES SPECIAL TRAINING, THE USE IS PROVIDED IN MEDICAL FACILITIES.
