

Parsethylene kish uPVC Pipes are manufacturers according to IS: 4985-2000. uPVC Pipes as per IS: 4985 being used in all conceivable applications ranging from Agriculture to sanitation, bore well to electrical ducts because of low cost, low pressure features .they became favorites of all farmers, builders and government departments

### Testing and Quality Control

Parsethylene kish uPVC Pipes are tested and quality control checks both during and after production. Tests carried out as per various International standards .depending on the application

### Product Range

Parsethylene kish uPVC Pipes are manufacturers from 20mm to 450mm Dia and all pressure rating classes 2.5, 4, 6, 8, 10, 12.5 kgft cm2  
 Plain End Pipes 20mm to 450mm  
 Bell End Pipes 20mm to 450mm  
 Elastomeric Sealing Ring Pipes 63mm to 450mm

### Advantages

Water mains and potable water supply  
 Sewerage main and Drain lines  
 Drainage Installations-Domestic and .industrial  
 .Factory Supply Lines  
 Slurry lines  
 Effluent lines  
 Corrosive Fluid pipe lines Deckhouse, .Chrome and Zinc plants etc  
 Chemical plants Installations  
 Paper mill Installation  
 Brewery Pipelines Installation  
 Coal washing plants  
 Power Station Screening Plants Pipelines  
 Power Station Chlorination Plants  
 Fume Extraction Ducts  
 Salt water pipes for small boat engines, cooling and blast tanks  
 Horticulture and Greenhouse Irrigation System  
 Down Pipes for large rain water system and building  
 Surface water drainage  
 Domestic applications, toys and games  
 Ducting for Power and Communications cable  
 Irrigations System and Sprinkler System
